LSC was founded by the British in 1922 and to this day still maintains its British feel and heritage.

The 18 hole layout is set in one of the most picturesque and naturally beautiful areas of Lisbon's surrounding countryside and is a mere 15 minute drive from the city itself. When you play the course the natural beauty and landscape strike you immediately, as all holes are bordered by many different species of trees and bushes and it is common to see more partridges and rabbits on the fairways than golf balls. As there is no development whatever on the golf course it's the perfect place to relax away from the day to day stress of city life.

The verdant foothills of the Sintra Mountains offer a breathtaking backdrop for the Pestana Beloura Golf Course. Here the famous American golf course architect Rocky Roquemore has conceived a course that will stretch both your imagination and ability yet provide an enjoyable challenge to golfers of all levels. Over 40,000 Eucalyptus, Oak, Pine, Magnolia, Palm and other exotic trees and plants have been planted on this gently undulating Par 72, 18 hole course that measures 5,716 metres from the Men's Tees and 5,094 from the Women's Tees. Water comes into play on many of the holes as they meander between the various lakes and streams that border the Fairways. The course is irrigated automatically from its own water supplies, guaranteeing crisp lies on lush tifton 419 fairways and true, holding greens from a green sward of creeping bents.

Near the Castle of Palmela, surrounded by vineyards developed in a harmonious whole of Cork Trees, where streams and lakes makes the magical beauty of this Golf course, is carefully inserted in a landscape that helps to break the daily life routine, wellknown for its hole 18 and green located on an island. It is just 30 minutes south of Lisboa, one of Europe's most stylish and historic capitals. In operation since 1992, the golf course of Montado needed an impulse that could put again in a prominent place that belongs. Was then initiated a work of remodeling in 2005 by already well-known Arq. Jorge Santana da Silva, in which the whole layout has been redesigned by creating new Tees and Greens that require some consideration when choosing the right putt before the next putting... highlight the hole 18 where it plays for a green located on an island.

# Quinta do Peru Golf & Country Club

With the Arrábida mountains as its backdrop, the Quinta do Peru golf course offers amateurs a pleasant game, whilst also presenting a challenge for professionals. Since 1999 Quinta do Peru Golf Course is on the ranking of the Top 100 Courses in Continental Europe, promoted by the prestigious magazine, Golf World. With its many trees and wild flowers, the course provides a varied start, for the first three holes consist of a par 5, a 386-metre par 4 and a 186-metre par 3. Amongst the first nine holes, attention is drawn to the short eighth hole, with a lake in front of its green. The next nine holes are even more difficult. Number 12 is a par 4 which, although not very long, has a lake running beside the fairway and down to the green. Then comes what is probably the most difficult test on the course: hole 16, a 200-metre par 3, where one needs to play over a lake to reach the green. The course's recognised quality has led to its hosting several events from the European Challenge Tour.

Troia Golf Championship Course is located on the Troia Peninsula, a long a flat and sandy stretch of land across the Sado Estuary, which separates the Setubal lagoon from the Atlantic Ocean, with the dramatic backdrop of the Arrábida mountain range. This gem of a course, was ranked #25 amongst Europe Top 100 Courses by British magazine "Golf World". The American golf architect Robert Trent Jones Senior, achieved a real masterpiece of golf course design at Troia, creating a true championship layout and providing a genuine test of skill for the lowers handicap golfer together with enjoyment for the more modest player. In 2008 while the golf course was being refurbished a new Clubhouse was built. Planned by the architect João Paciência, the Clubhouse offers you the chance to savour a delicious meal overlooking the lake in perfect harmony with the surrounding landscape.

# Ribagolfe I

This is one of the two courses that goes to make up this sprawling resort lying in a pretty forest 45 minutes outside of Lisboa. With E.G.D., Peter Townsend designed this dearily as championship course. With a total length of 7,370 yards still an easy course to walk, despite the beautifully sloping terrain and dales lined with magnificent cork oak-trees. Having said that, the large number of tee boxes makes this a course where most golfers, might card a flattering score, because the greens are huge with only a few contours. It can be tougher for the long-hitters, because while they can get rip at leisure they need to be a careful with narrow fairway, some rather large bunkers and a few water hazards the threaten the shot; on the 14th, you will need to know just how far you can hit it to make that short-cut.

The design of this course was assigned to another former European Tour player, Michael King, again under the expert supervision of European Golf Design. This is again the same type of environment with a lot of cork oak-trees, and while the style is more British than American (like Ribagolfe I), there is still a certain feeling of uniformity, maybe due primarily to the type of vegetation. This course is intended more for members, which explains why the yardage and the width of the fairways are much more reasonable. The greens are pretty huge and moderately contoured. Water hazards are in play only in two holes, which again adds to the cool comfort of a peaceful day spent golfing with friends. Other hazards like little dales threaten the tee shot on the par 3 holes and add a little spice. A serious piece of golf with excellent green-keeping to match.

# Dolce Campo Real Lisboa Golf

Lying just 30 minutes north of Lisbon, CampoReal Golf enjoys a wonderful tranquil location. It lies in a beautiful valley overlooking an unspoiled landscape of dramatic rolling hills and ancient vineyards, occupying land formerly used by the Portuguese royal family as hunting ground. Host to Ladies European Tour Events in 2010 and 2011, the course meanders through the naturally undulating terrain, and provides a challenging and fun test to all standards of players. The challenging greens are built to USGA specification, but there are relatively few bunkers on the course to trap the errant ball. The modern clubhouse has beautiful panoramic views over the course where you can sit and relax with your post-round refreshment.
